Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Objections - Specification

1. The specification is objected to. The current specification appears to be a literal translation of a foreign-language document into the English language. It is replete with terms which that are not clear, concise, and exact. A substitute specification in proper idiomatic English and in compliance with 37 CFR 1.52(a) and (b) is required. The substitute specification filed must be accompanied by a statement that it contains no new matter.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. (see MPEP § 2173.05(d).)

(a) Claims 1-13 are generally narrative and indefinite, failing to conform with current U.S. practice. They appear to be a literal translation into English from a foreign document and are replete with grammatical and idiomatic errors which renders their meaning unclear.

(b) Independent claim 1 is rendered indefinite by the use of the unintelligible phrase "An optical system which is transformed to bend an optical axis thereof, thereby varying paraxial amounts thereof" (Claim 1, Lines 1-3).

(c) Independent claim 2 is rendered indefinite by the use of the unintelligible phrase "wherein said at least two optical elements are mutually decentered, thereby varying properties thereof" (Claim 2, Lines 2-4).

(d) Independent claim 10 is rendered indefinite by the use of the unintelligible phrase "transforming at least a portion of said optical system to thereby shift and/tilt (*sic.*) an

optical axis position defined by said optical system, so that depending on a change in said optical axis position, a position of said optical axis entered into said optical surface is varied to thereby change an optical power" (Claim 10, Lines 6-12).

Other Remarks/Information

4. The aforesaid defects in applicant's disclosure preclude the identification of clearly allowable subject matter at this time.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to David N. Spector whose telephone number is (703) 305-1521. The examiner can normally be reached at this number Monday through Friday between 6:00 AM and 2:30 PM. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Georgia Y. Epps, can be reached on (703) 308-4883. The fax number for the organization where this application is assigned is (703) 308-7722.
